Photography Classroom Roster

We respect the privacy of *all* children (and their respective parents and guardians) in your classroom, and we endeavor to clearly communicate our *Right Brain Initiative Documentation and Privacy Policies* in a forthright way.

We must obtain legal, written permission from every parent prior to documenting student learning.

1. Please distribute and collect forms as early as possible to obtain permission in time for your arts experience.

2. BY OCTOBER 1, 2015
When you have your classroom's forms returned, **please submit this (or your own printed) roster, along with all of the original, signed forms from your class to our office using the self-addressed envelope**. We are required to keep them on file for a number of years while we use student work samples and photographic images for The Right Brain Initiative educational and outreach purposes.

We'll also be sure that any visiting photographer gets a copy of the roster.

3. Be sure to maintain your own copy or record of permissions so that you can sticker or otherwise designate to the photographer who the "green lighted" students during a photography visit.

An electronic version of this and all other permission forms at the 'Participating Educators' section of our website, (password = rightbrain), at *www.TheRightBrainInitiative.org*, but we are also happy to send you more forms if they are needed.

First Name	***Last Name**** *(won't use publicly)*	***Permission***
